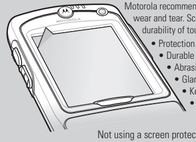
Screen Protector



Motorola recommends the use of a screen protector to minimize wear and tear. Screen protectors enhance the usability and durability of touch screen displays. Benefits include:

- Protection from scratches and gouges
- Durable writing and touch surface with tactile feel
- Abrasion and chemical resistance
- Glare reduction
- Keeping the device's screen looking like new
- Quick and easy installation.

Not using a screen protector can affect your warranty coverage.

An initial screen protector is already applied to your MC75A. Contact your local account manager or Motorola, Inc. for more information and purchasing details. Part number: KT-129195-03R Screen Protector 3/pk.

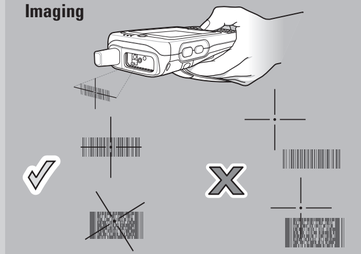
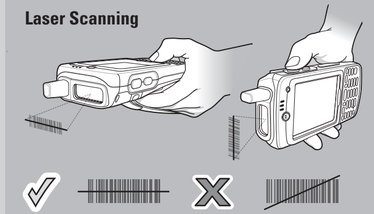
DATA CAPTURE OPTIONS

Imaging



Laser Scanning



Camera Decode

1. Launch a bar code reading application on the MC75A.
2. Position the MC75A toward the bar code.
3. Press the **Scan** button.
4. In the image window align the red target over the bar code. When the MC75A decodes the bar code the Scan/Decode LED light green and a beep sounds.
5. Release the **Scan** button.

Camera Photo

1. Tap **Start** > **Pictures & Videos** > **Camera**.
2. Point the MC75A at an object.
3. Press the **Enter** or yellow scan buttons.
4. Hold MC75A still until "Shutter Sound" is heard.

GPS Information

When using the GPS feature of the MC75A6/8:

- Acquiring satellite signals may take a few minutes. It is best to be outside and have a clear, unobstructed view of the sky.
- Without a clear view, acquisition takes much longer and could result in the MC75A6/8 being unable to compute the initial position quickly.
- Obtain a satellite fix before moving.
- Shutdown GPS application when not in use to extend battery life.
